(407) 886-3676

*All proceeds to benefit the Moffit
Cancer Center, Florida Hospital
Oncology, and the International
Myeloma Foundation*

Together, We Can Make A Difference

Multiple Myeloma is a bone marrow cancer. It affects the blood producing cells in the bone marrow. Although there is no cure for myeloma, it is a treatable disease. There are approximately 15,000 new cases of myeloma in the United States each year. Since Rob Bradford's diagnosis, he and his family have been aided in his fight against this disease. With the assistance and support from the Moffitt Cancer Center, the Florida Hospital Oncology, and the International Myeloma Foundation, Rob continues to fight this battle successfully.

Last Year, Thanks to You and our Sponsors, We Did Make A Difference!

In 2009, **\$40,000** was raised to fight cancer, bringing our four year total to **\$180,000**. With your help this year we can be even more successful.

Join Rob, his family, and friends as they pursue a cure for multiple myeloma at the Coach Rob's Benefit Bash Golf Outing.
